BRIGADA ESKWELA 2019
NARRATIVE REPORT

Gone are the days when opening of classes means pupils and teachers alike will have to get their hands and their clothes dirty just to arrange, take off all the dust that have accumulated during the summer break, clean the grounds and arrange the classroom. Now, through the Brigada Eskwela Campaign or the National Schools Maintenance Week, launched by the Department of Education as an annual event, it serves as a partnership between government agencies and the private sector to help our schools be ready on the first day of classes.

This year 2019, Brigada Eskwela was slated to last for 6 days which started from May 20 until May 25. Schools were busy preparing for campaigns in their respective localities and barangays, encouraging pupils, parents and other stakeholders to join in readying our children's second home.

Balabag Elementary School, in consonance with the aim and objectives of this annual event have made measures to entice and encourage different stakeholders in participating in this years' Brigada Eskwela Campaign. Though the projected attendance was not met, with all the efforts made by those that took time from their busy schedules and those parents that are attuned to the needs of our school children, together with the local barangay officials, headed by Brgy. Chairman Jerry Rumbines Jr. and other stakeholders and tireless teachers, we were able to somehow achieve a clean, safe and motivating learning environment for our pupils this school year.

Learnings learned from this years' Brigada Eskwela will surely be of help in setting up a much better Brigada Eskwela Campaign next School year for our school.
